FBI MAIL ROOM

I am Deaf and I need Video Relay Service (VRS) in order to be able to place and receive phone calls with hearing individuals in my own native language – American Sign Language (ASL). I am writing to strongly urge the FCC to establish a new stable, reliable, and predictable VRS rate for the next three years. I know that a long-term stable rate will directly impact the VRS services that I rely upon.

Please set a fair VRS rate that encourages VRS providers to:

- Increase VRS access for all Deaf individuals through outreach programs
- Invest in the training and development of additional professional interpreters
- Improve VRS technology to provide reliable 24/7 and 911 services

Cutting the VRS rate would severely impact the quality of VRS, which I rely on for my communication needs.

Respectfully, William Francis + Mollie Bant Email _____

"Hello" Kevin,

Of course, I almost faint about Sorenson VRS charging me so high each month, I pay \$100.00 sometimes over and drives me crazy about it.

Also AT&T charges us to pay over \$50.00 each month for nothing, we do not call anyone or anyone stops calls us on phone. I did just only Sorenson VRS, we pay \$150.00 each month for both Sorenson VRS and AT&T. Wow!

We hope to hear from you as soon as you can.

My interpreter says it is awful for me both Sorenson VRS and AT&T charging me.

Thank you so much!

Columbia can't do anything to us for over 2 years.

Sincerely, Frances Brant
